Stage 1
Stage 2
Stage 3
Fields Not Required
Title: Custom Title

Open Preferences Panel

Clear Custom Settings

Customise your workflow
Select colour for each workflow stage
- First: check your Adobe preferences are set as defined in the Preferences tab
- Select the sample workflow you want to customise
- Select a colour from Stage 1..3 or "Not required"
- Click to assign colour coded workflow stage to relevant fields

NOTE
- Your customisation will not appear if you select a different workflow model
- Click CUSTOM to restore
- On closing a file it will retain your customisation
- To remove your customisation: click Clear Custom Settings

To view
Select the IPTC Fields or one of three sample workflows (buttons on left)
- Sample workflows show by colour code which fields should be added at which stage
